

148									
Code	A	B	C	D	E	F	G	Hole dia/mm	Weight Kgs
QC4826	1		-31	60					0.20
QC4833	2		-33	60					0.30
QC4842	3		-40	75					0.42
QC4848	4		-46	85					0.54

NOTE: when using 148 fittings for the top rail of a guardrail, the top of the upright must NOT be reduced in length but left at full height. The top of the tube will need to be capped using part 133. When working out the correct tube length dimension 'C' should be subtracted
