

Easy Access for Tonbridge Special Needs School

Nexus School in Tonbridge was granted planning permission earlier this year to expand and build a new site and Alexandra is pleased to be part of the process. The school which now has space for a 50% increase in pupils has been a work in progress between the governors and local authority for many years.

Alexandra were specified for the products and we worked with Nexus' chosen contractor to develop and co-ordinate the project that was made up of around 25 different, green powder coated gates ranging from 1.5 – 2 metres in height. A combination of Protek 1000 single and double leaf pedestrian and vehicle access gates were installed on site as well as a bi-folding gate on the front entrance that was designed with easy access and space saving in mind.

Schools in the Kent area are feeling the increasing pressure to take in more and more pupils and with Alexandra's 15 year guarantee on all products, Nexus will be happy to welcome them for this term and many to come.
