

DATASHEET | V2.0 - 05/26

Protek[®] 358 Clamp

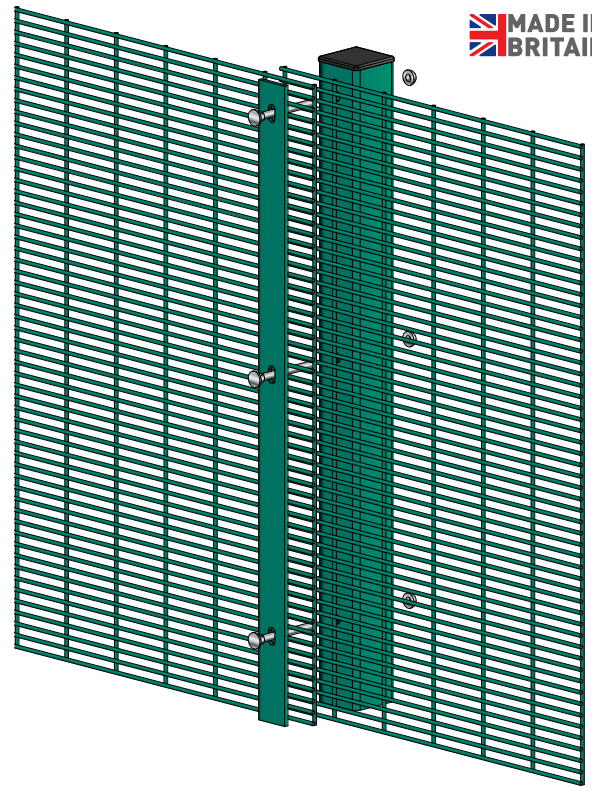

FLAT PANEL CLAMP SYSTEM

Designed from the ground up to deny intruders every advantage, Protek 358 Clamp is a formidable barrier that leaves nothing to chance. Its narrow mesh apertures eliminate footholds entirely, making the fence exceptionally difficult to climb.

But strength doesn't mean sacrifice. Protek 358 Clamp maintains clear sight lines through the fence line, giving security teams the visibility they need without compromising on protection. Every panel is secured with a full-height clamp bar and multiple anti-tamper fixings, creating a continuous, high-integrity perimeter that is as reliable as it is resilient.

SUITABLE FOR:

- High Security Facilities
- Infrastructure
- Industrial Estates
- Prisons

Other RAL colours available as special order

Nominal Fence Height (m)	Panel Size Height x Width (mm)	Post Centres (mm)	Overall Length of Post (mm)	Post Size (mm)	Number of Fixings	
					Per Post	Per Corner
1.8	1,833 x 2,515	2,440	2,450	60x60	7	14
2.1	2,138 x 2,515	2,440	2,800	60x60	8	16
2.4	2,442 x 2,515	2,440	3,100	60x60	9	18
3.0	3,001 x 2,515	2,440	3,750	80x40	11	22

FLAT PANEL CLAMP SYSTEM

Product Technical Information

- Panels:**
- Mesh size 12.5 x 76.2mm - 4mm wire.
 - Manufactured to BS 4102 and galvanised to BS EN 10244-2:2001 class D.
 - Weld strength is 75% of the minimum tensile strength of the wire (tensile range 540-690 N/m²).

- Posts:**
- Dig-in posts. Post size varies with height (see table).
 - Post material manufactured to BS EN 10210-2:1997 and galvanised to BS EN 10346:2009.
 - Supplied with plastic cap (size varies with height (see table)).

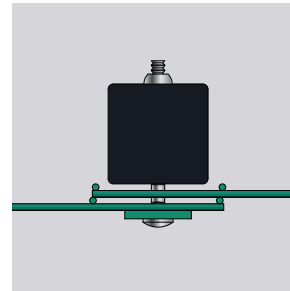

- Fixings:**
- Clamp Bar: 40 x 5mm (full length of mesh panel).
 - M8 x (varies with post size) cup square security bolt.
 - M8 shear nut with M8 washer.

- Finish:**
- Panels & Posts are galvanised before being powder coated to BS EN 13438:2005 (min 100 micron).
 - Standard colour is RAL 6005 (Moss Green).
 - Other RAL colours available as special order, including marine grade coating.

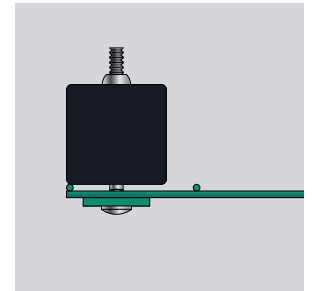

- Post Options:**
- Cranked posts (internal and external / top and bottom).
 - Face fix (for flush against walls).
 - Threaded insert posts.
 - Base-plated (flush to front, back or centrally) available as special order for installation onto concrete and other hard surfaces.

POSTS & FIXINGS

The post and full-length clamp bar system provides a secure fixing solution that holds panels firmly in place while still allowing for flexibility. Easy to install, the system enables panels to be stepped and adjusted to follow the natural contours of the ground. With vandal-resistant security fixings throughout, this post and clamp system offers a higher level of security than a traditional clip-based alternative.

We are able to offer a 15-year guarantee, covering the performance and appearance of our mesh fencing systems. Giving you added confidence when specifying an Alexandra product.
