Protek[®] 656 Clip

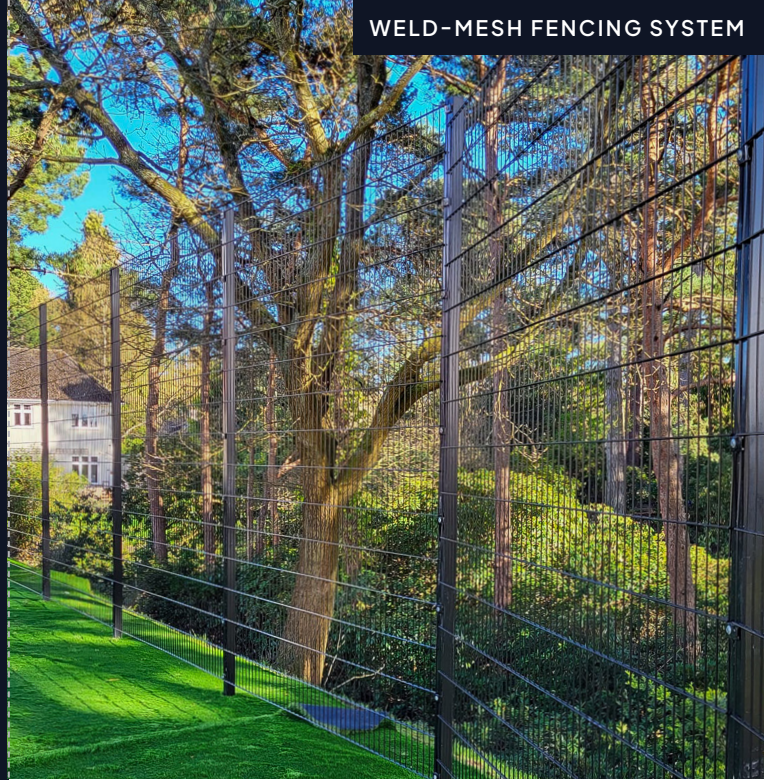

TWIN-WIRE CLIP SYSTEM

The Protek 656 Clip system features twin-wire mesh panels that provides a versatile fencing system that is stronger than single-wire systems.

Protek 656 mesh fencing panels use 6mm diameter horizontal wires either side of a 5mm vertical wire. This deeper mesh construction provides the fence line with increased strength and rigidity, as well as making it harder for intruders to cut through or climb over. As a clip system, adjoining Protek panels are held together with metal clips that are then clamped into posts using pre-drilled holes with inserts.

SUITABLE FOR:

- Schools & Colleges
- Public Areas
- Retail Parks
- Solar Farms

 **MADE IN BRITAIN**

Other RAL colours available as special order

Nominal Fence Height (m)	Panel Size Height x Width (mm)	Post Centres (mm)	Overall Length of Post (mm)	Post Size (mm)	Number of Fixings	
					Per Post	Per Corner
1.2	1,230 x 2,506	2,520	1,800	60x60	4	8
1.8	1,730 x 2,506	2,520	2,400	60x60	5	10
2.0	1,930 x 2,506	2,520	2,600	60x60	6	12
2.4	2,330 x 2,506	2,520	3,100	60x60	7	14
3.0	2,930 x 2,506	2,520	3,750	60x60	8	16

Protek[®] 656 Clip

TWIN-WIRE CLIP SYSTEM

Product Technical Information

- Panels:**
- Mesh size 200 x 50mm.
 - 1 x 5mm vertical and 2 x 6mm horizontal wire.
 - Panels can be inverted to create flat top option.
 - Manufactured to BS 4102 and galvanised to BS EN 10244-2:2001 class D.
 - Weld strength is 75% of the minimum tensile strength of the wire (tensile range 540-690 N/m²).

- Posts:**
- Dig-in posts. Post size: 60 x 60mm SHS.
 - Post material manufactured to BS EN 10210-2:1997 and galvanised to BS EN 10346:2009.
 - Supplied with 60 x 60mm plastic cap.

- Fixings:**
- Durable metal clips.
 - M8 x 40 Fourtress tamper resistant hardened steel security screw.

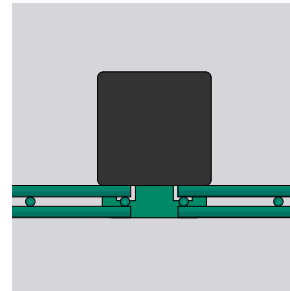

- Finish:**
- Panels & Posts are galvanised before being powder coated to BS EN 13438:2005 (min 100 micron).
 - Standard colour is RAL 6005 (Moss Green).
 - Other RAL colours available as special order, including marine grade coating.

- Post Options:**
- Cranked posts (internal and external / top and bottom).
 - Face fix (for flush against walls).
 - Base-plated (flush to front, back or centrally) available as special order for installation onto concrete and other hard surfaces.

POSTS & FIXINGS

The post and clip system offers a reliable fixing solution that secures panels firmly while allowing for flexibility. Simple to install, each post features additional insert holes that enable the panels to be stepped or angled, following the natural contours of the ground. Combined with vandal-resistant security fixings, this system provides a solid level of security for any boundary.

We are able to offer a 15-year guarantee, covering the performance and appearance of our mesh fencing systems. Giving you added confidence when specifying an Alexandra product.
