

High Security at Sheerness Steelworks

With the aesthetics of Sheerness Steelworks in mind the chosen contractor installed our black powder coated mesh and concertina razor wire around the perimeter of the site employing the highest levels of security. The installation required 4 sets of double leaf access gates and 1700 linear metres of 2.4m high Protek 358 prison mesh, aptly named due to its high security features.

The new fencing will continue to provide protection to the familiar sight on the island for years to come with Alexandra's 15 year guarantee. Speak to our sales team to find out how we can design a high security fencing system to meet your needs.
